Medical Media Job #44409

VA

U.S. Department
of Veterans Affairs

Post-Graduate Year Two (PGY2) Psychiatric Pharmacy Residency

West Palm Beach VA Medical Center

Residency Purpose and Goals

The PGY2 Psychiatric Pharmacy Residency is a one year post-graduate training program designed to develop clinical expertise as a Clinical Pharmacy Specialist in the area of psychiatric and neurologic pharmacotherapeutics.

The training includes both outpatient and inpatient learning experiences devoted to the development of skills essential for the delivery of pharmaceutical care with a principal focus on psychiatry. Graduates of our residency program will be able to provide exemplary patient-centered medication therapy for individuals with psychiatric and neurologic disorders as members of the health care team, serve as knowledgeable psychiatric pharmacy rotation preceptors, and effectively communicate and educate other health care professionals, patients, and the community on topics in psychiatry and neurology.
